Minutes of the Client Meeting

Group 22-N

Friday 5 Apr 2024

Minutes are written by: Li-Ting Liao

Host: Siyu Ni

Members: Li-Ting Liao

Nilangi Edirisinghe

Vishal Dixit

Yuyue Chang (Garnet)

Client: Diana Shah

1 Time and Place

The client meeting for the Software Engineering Group Project was held on Zoom at 10.00 am on Friday 5 Apr 2024.

2 Summary of the Meeting

Siyu presented our recent progress. Members asked questions about whether our current progress met the client's expectations. Diana had some feedback for the Home Page and asked us to implement other key pages and started creating APIs for user authentication.

3 Feedback from the Client

- Simplify the content of the "Get Involved" section
  - Change the wording of "Enrich Lives"
- Diana asked where users start the "Register" process.
  - Nilangi planned to let "Begin Your Journey" in "Get Involved" and "Log in" in the navbar.
  - Diana was fine with this arrangement.
- Diana said it's ok to not remove anything from the "Get Involved" section for now. Just update the background and see how it goes.
- Diana said in the footer we could have social media accounts of the website for users to visit.

4 Potential challenges suggested by the Client

Diana suggested that we should focus on allowing some user interactions on the website:

- E.g. allow users to start their login and register process.
- Diana said that this function is a basic thing to implement. She suggested this authentication step should be implemented first.

Diana suggested that we should be clear about how many pages we need to create for the entire website and by considering the time constraints, we could then decide for ourselves how many pages we can finish.

- Diana said trying to finish the functionalities from what we have for now, especially the functionality of the navbar.

5 Next meeting

Diana preferred to skip our client meetings for 2 weeks because of the mid-semester break.

- We can still email her any urgent questions during the break.
